RECEIPTS BECOME ENORMOUS

WHEAT RECEIPTS SINCE FRIDAY 1,000 CARS MORE THAN YEAR AGO. Visible Shows an Increase of 1,220,000 Bushels, Compared With 656,000 Decrease Last Year-Cooler

Wenther Bulls Corn. CHICAGO, Sept. 6,-An increase in the visible supply, together with enormous re-ceipts in the Northwest to-day caused wheat to turn weak and an early gain was nearly all lost. September closed the lower and December rose 1/4014c. December corn left off %c higher. May oats were unchanged to 1/2c up. Pork declined 121/2c, lard 21/2c, and ribs 171/2c.

Wheat held very steady during the first bour, although the conditions were regarded as bearish. Some of the early trans-ections were %c or more above the close ed as bearish. Some of the early transections were %c or more above the close
Saturday, September selling at 62%c, and
December at 61%61%c split. The strength
in corn was an influence to wheat, and
besides there was a good deal of profittaking by shorts. Offerings were small,
with the competition sharp, and prices held
firm for a time. The enormous receipts in
the Northwest were regarded as discoursging, being 2,930 carloads since the last
report, as against 1,839 for the same time
last year. Chicago received 42 cars of
wheat, against 1,688 for the corresponding
period of 1856, and that was the only feature of this season's receipts compared with
those of the year before that was of a
bullish character. The strength with which
the market opened was fairly well maintained until the visible supply statement
was completed, which showed 1,230,000 bushels increase, compared with 656,000 bushels
decrease the year before. That increase
was somewhat heavier than expected and
prices dropped on its receipt to ½c below
the highest point previously made for December and %c below the top for Septemher. September opened unchanged at 6234c,
improved to 62%c and then declined to 61%c,
and from that point commenced a gradual
reaction to 62%c and then declined to 61%c,
and from that point commenced a gradual
reaction to 62%c, the closing price. December started %c higher at 00%060%c, and
recovered to 66%c at the close.

Low temperatures and reports of killing
frosts in some districts strengthened corn
early. The fear that the government report, due this week, might not show any

The fear that the government re-due this week, might not show any early. The fear that the government report, due this week, might not show any deterioration, however, acted as a partial counterweight to the general bullish surroundings of the corn pit. December began with the higher at 25% 20%, rose to 31c, weakened to 25% 20% and 25% 20% Coats followed corn, but did not display as much strength as did the latter. The very heavy receipts and the latter. The very heavy receipts and the latter. The very heavy receipts and the latter. The feeling in provisions was very unsettled owing to the yellow fever situation. Packing house interests sold freely and the market ruled heavy throughout the session, with the lowest point of a considerable decline current at the close. December pork opened unchanged at 35.5%, and dropped at 35.5%, and dropped at 35.5%, and declined to 37.2%, October ribs commenced 5c down, at 5.29, firmed up to 55.22%, weakened to \$5.62%, and closed at \$5.6%. Estimated receipts for to-morow—Wheat, 455 cars; corn, 75 cars; oats, 500 cars; hogs,

LOCAL GRAIN MARKET. Wheat Active and Stendy-Corn Firm

-Onts Higher. In store-Wheat, 628,100 bushels; norn, 96,900 bush-els; nots, 10,100 bushels; rye, 26,600 bushels.

Wheat. heavy at Minneapolis and Duluth for the same time, reaching nearly 2,000 cars, and there were good rescripts in Chicago. The visible supply statement also showed an increase that week of 1,220,000 bushels. Yet prices here were steady and exporters and elevator men but fire huyers upon the basis of 50s per bushel for 20 pound No. 2 hard, which was the same as Friday, and very little remained unsold by the closes. Grain Notes.

The visible supply of tye is now 639,000 bushels. A New York message reports 46 loads of wheat and 5 of corn taken for export yesterday. Broomhalf's statement of the world's wheat ship-ments last week is 4,736,000 bushels, against 7,169,000

the previous week.

The amount of whent on ocean passage to Europe Servicesed 1,526,000 bushels and corn decreased 880,000 bushels last week. Puts on Chicago December wheat, good this week, were quoted at 194c; calls, 62%c; puts on December corn, 30c; calls, 22c. World's shipments of wheat last week were 4,549,900 bushels; proceeding week, 6,600,000 bushels; a year ago, 5,905,000 bushels.

Broomhall says: The forecast is for fine weather in England and for brilliant weather in France. Rusian wheat is sparingly offered. sian wheat is sparingly offered. Liverpool wheat receipts for three days were 285,000 bushels, of which 272,200 bushels was from American Atlantic ports. Corn receipts were 280,800 bushels.

Atlantic ports. Corn receipts were 230,890 bushels. Puts on Chicago September wheat, good to-day, sold at 601,4660%c; calls, 618,619%c; December wheat sold on the curb at 909,6600%c; puts on December onco, 308,6500%c; asis, 311,9311%c.

Kansas City grain stocks, with changes last week, are as follows: Wheat, 528,109 bushels, increase 168,-109 bushels; corn, 96,590 bushels, increase 28,000 bushels, increase 2,600 bushels, increase 2,600 bushels, increase 6,600 bushels, increase 6,60 els, increase 6,000 bushels.

Light frost is predicted in Iowa, Nebraska and Northern Kanzas. The temperature was down to 34 in South Dakota and 44 at Dodge City, Kaz., yesterday morning. Eather heavy rain fell everywhere except in Nebraska and Northern Kanzas.

The clearances for export at the four Atlantic ports the past two days were 451,216 bushels of wheat, 87,997 packages of flour, 964,688 bushels of corn, 114,000 bushels of cats and 20,497 bushels of rye. Total wheat and flour clearances amounted to \$69,632 bushels.

Chicago grain stocks in store and affort, with the characters are college.

Chicago grain stocks in store and affoat, with changes last week, are as follows: Wheat, 440,000 bushels, increase 107,000 bushels; cora, 6.731,000 bushels, increase 1.694,000 bushels; cats, 509,000 bushels, increase 1.694,000 bushels; cats, 509,000 bushels, increase 51,000 bushels; rye, 52,900 bushels, decrease 52,000 bushels.

Primary market receipts for the past two days were 1.609,000 bushels of wheat, against 2,405,000 bushels, last year 764,000 bushels. Corn receipts, 1,105,000 bushels, last year 764,000 bushels. Corn receipts, 1,105,000 bushels; a year ago, 2,487,000 bushels. Shipments, 570,000 bushels; last year, 2,425,000 bushels.

The total clearances of grain from New Orieans

500 bushels, last year, 2.425,000 bushels.
The total clearances of grain from New Orleans
for the year ending August 31, compared with the
preceding year, were as follows: Wheet, 15,225,163
bushels in 1895, against 2.912.935 bushels in 1897;
corn, 27.465,500 bushels, against 29,465,285 bushels;
cats, 2.156,624 bushels, against 389,185 bushels; rye,
389,514 bushels, against 185,489 bushels.
Christophic Company of August 25, against 186,480 bushels. During the month of August 22 grain laden vessels cleared from the port of New Orleans, carrying \$18,-798 bushels of wheat and \$69,257 bushels of corn. Of this United Kingdom points got 146,255 bushels of wheat and \$56,401 bushels of corn and Continental oning \$72,255 bushels of wheat and \$56,500 bushels. oints \$72,251 bushels of wheat and 102,866 bushels f corn. The largest cargo of wheat was 188,517 ushels for Antwerp and the largest of corn 127,143 ushels for Laverpool. No cats or tre were for-corded

warded.

The Minneapolis Market Becord says: Minnesota wheat is threshing out 16 to 25 bushels per acre and will average altogether about 18 hushels, making a total crop of approximately 100,000,000 bushels. Returns are not so full from North Dakota and South Dakota, but such as are received justify previous conclusions that the Northwest crop is about 200,000,000 bushels. If farmers hold back their wheat, as they now seem determined to do, there will be none too much affered to satisfy the urgent demand for it.

Stocks and Bonds.

NEW YORK, Sept. 5.—To-day's stock market was variable and irregular at all times, but was more or less under the continuing influence of the shrioking surplus reserves of the banks and the shrioking surplus reserves to the total the same and the market was confined largely to special stock trading, being highly professional throughout. The opening was higher, in sympathy with London. It quickly became evident, however, that no outside interest had been enlisted here and the professional bears stracked the list in weak spots, notably Manhatian, People's Gas and Tobacco, and soon wiped out the earlier gains. A number of individual stocks showed conspicuous strength all day and a raily in People's Gas drove the bears to cover and made them more cautious. The sirength became general in the late dealings under the leadership of St. Paul and the close was strong at the best prices of the day and generally at a level above Friday's close. The fear of interrupted traffic through reliew fever quarantine was a factor in the early weakness, and especially in Southern Railway preferred, but at the same time there was an advance of 2% in Illinois Central and conspicuous firmness in Louisville on the prospect of resumption of Havana traffic. Baltimore & Ohlo was heavily bought by banking interest all day and showed an extreme gain of 5 points. Other strong features were Denver preferred, Atchison preferred, Reading first preferred, Denver & Gulf, the Pacific coast improvement stocks and the grangers, in sympathy with St. Paul, on the very advantageous showing in the latter's annual report. The dominant factor in the situation continues to be the absorption of money rate pour preferred, States treasury on account of subscriptions to the new honds. Call money continued unite firm with a per cent the ruling rate and with no apparent effect from the treasury amouncemen account.

The condition of the money market had its reflection also in the extreme dulines of the trading in bonds, but prices were in the main firmly held. United States old 4s, registered, and the 5s advanced ½ and the new 4s and the 2s, when issued, ½ per cent interest bid place.

The first receipts of new cane syrup came in to-day, classed prime, and was sold by Murphy & Barwell at \$1.50 per gallon.

Dry Goods.

Dry Goods.

NEW YORK, Sept. 5.—Yesterday was a close holiday in the dry goods market. To-day's activity was, therefore, marked. There are two days' orders to be filled and there is, in consequence, much shipping under way. This made the usual Tuesday duliness a mismomer. Store trading was also quilte heavy. Print cloth market fairly active. Extraser still quoted at 2.1-18c. Odd goods on a corresponding basis. There have been fair sales of print cloth, both extras and odd goods, from day to day, and millimen have worked theirs into much better shape. Staple cotton goods show unimproved tradings. The steady demand for small lots has, however, kept stocks pretty well down.

Butter, Eggs, Poultry and Cheese. Butter, Eggs, Foultry and Cheese.

A Good Way to Freshen Crape.

From the Ladles' Home Journal.

In buying crape it is well to ask for the waterproof and thus avoid anxiety when in the rain, as the ordinary material will spot and lose its crispness when wet. When this does happen, or If the crape has worn rusty looking and shabby, it may be steamed and thus renew its glossy, crisp texture and appearance. This process has been tried for many years in my immediate family and gives the most satisfactory results, and it may be repeated as often as necessary. Rip the hems out of the veil or the trimming to be renovated, as each place must be flat; brush the dust off with an old piece of silk and pull out all of the threads. Then have a clean broom-handle and around this wrap each plece of crape, keeping it smooth until all are on the handle and fastened with small pins, do not pull it very tightly, Keep a washboiler half full of boiling water and rest the handle across the edges of the boiler so that it may be turned several times during the stand the handle up until the crape is perfectly dry. This usually requires ten hours. When unpinned it will be found glossy and crisp as when new, and a pleasure to the economical woman. From the Ladies' Home Journal.

crisp as when new, and a pleasure to the economical woman. To Keep Shirt Waists Down. To Keep Shirt Waisis Down.

Shirt waists have an uncomfortable fashion of slipping up in the back, which is especially disagrecable to the girl who prides herself upon being weil groomed.

There is one way, and one only, of keeping them down effectually. For this make a band three inches long and just enough wider than the belt of the shirt waist to allow room to stitch it on easily and leave it as wide as the belt. Work two buttonholes in it and attach it firmly to the belt of the shirt waist, exactly in the middle of the back, on the outside. Now sew two flat buttons on the skirt to match the buttonholes. When buttoned the waist and skirt will be kept together easily without strain hoies. When buttoned the waist and skirt will be kept together easily without strain or danger of separating.

The buttons should be flat, such as are used for men's underwear-pearl buttons for skirts and black trousers buttons for dark receiver skirts. woolen skirts.

By this simple contrivance all danger of

tearing the skirt by pinning is avoided, and the work once done is lasting.

The Canada Apple Crop.

Concerning the Canadian apple crop Samuel Nebebit, one of the largest handlers in the Ontario district, says: "The fruit throughout Ontario is very poor, being spotted and in many places wormy. There are places, however, where as fine fruit as ever was packed can be bought. Competition among the buyers is strong and prices are consequently advancing. I have recently bought a round but of Gravensteins in Nova Scotta that is of excellent quality. Northern Spies will yield only 40 per cent of an average crop in Ontario; the fruit is exceptionally poor and the crop small east of Teronto. Late rains are impressing the prospects some. Prices for winer varieties have already reached 22 per harrel in the treez. In my judgment this is higher than they should contribute the prospects are beginning to put up fall varieties, such as Culverts. Ribstons and Blenheima, which they are offering at \$2 per barrel, f. o. b."

Eclipsed. From the Cleveland Leader.

"See that dejected looking fellow over there?"
"That man who looks as if he had lost his last friend? Yes, who is he?"
"Bill Biggler. He's just back from the Klondike." discount in the open market for short bills, 1% of discount in the open market for short bills, 1% of light per cent.

5:0 cattle and 1,800 quarters of beef.

CATTLE—Movements the past 24 hours:
Shipments 1,201 1,202 1,203
The run yesterday was liberal, but as the arrivals at the Western points were light the market held up very well and showed fair life. There were not many export and dry lot dressed beef steers in and found ready sale. One lot of choice export steers averaging 1,425 pounds sold at 8.35, and a lot averaging 1,200 pounds brought 85.30. Cows in the native division, when the shy, sold very well, and best brought steady prices, but the poorer lots were a little lower and dull. Stockers and feeders were in good supply, but mostly from the range country; best in very good demand at old prices, but common and rough draggy and 10622c off. Range cattle were well represented in the arrivals, and all fat steers were steady and firm, but rough stocker kind were dull and lower to sell. In the Texas division the supply was double Tuesday's of last week, but demand fair with prices generally steady, though towards the close some of the poorer lots showed a slight decline. Milch cows firm and best in good demand. Common, \$15618; medium to fair, \$22.50636; good to choice, \$25645.

DRESSED BEEF AND EXPORT STEERS

medium to fair, \$22,50930; good to choice, \$25645.

3 674 OF INTEREST TO STOCKMEN

MARKED IMPROVEMENT OF FEED-ER MARKET DURING AUGUST.

More Than 26,000 Stockers Sent From the Yards in August to Be Fed for Market by Missourl and Kansas Stockmen.

The report of Joseph Bruser, the Missouri cattle insuector at the yards, for the month of August shows a marked revival of the stocker and feeder business during that month, and indicates a determination on the part of Missouri farmers to feed pretty liberally the coming season. His inspections were for shipments, as follows: Total..... 26,227

There were not many toppy cattle in yesterday and what here sold very well. W. S. White, of Overbrook, Kas., brought in inneteen grade native steers of his own feeding that were smooth, well fleshed and commanded general attention. They averaged 1,428 pounds and were sold by Southee & Kirk at \$.5, the top price of the day. Michaels took them on an order.

"Butler county Kas. is fairly prosperous

"Butler county, Kas, is fairly prosperous this year." said R. W. Tuttle, who was a visitor at the yards yesterday. "Corn is good and we have plenty of roughness. There is a feeling, however, that feeding cattle are too high, and there will not be so many cattle fed this season as last, though a good many will be roughed through, We have more hogs than a year ago." "The sheen business of Idaho is prosper-

"The sheen business of Idaho is prospering." said S. R. Parkerson, of Franklin,
who was here ysterday with eleven cars
of wethers and lambs. He says sheep are
doing well in his section, and prices of
wool and money have been such the past
two seasons to make them fairly remunerative. Flockmasters are disposed to increase rather than diminish their holdings.

"Pottawatomie county, Kas., will rough through a good many cattle this season," said L. W. Spalding, of Westmoreland, said L. W. Spalding, of Westmoreland, who was here yesterday with cattle. "But as we only raised half a crop of corn, full feeding will be light. There is plenty of roughness and good grass. Farmers have the usual number of hogs, but cattle are now short."

Visitors at the Yards With Stock. J. Hitt. Bern, Kas., had hogs at the yards
